

SKYE

NEW

Skye adds a new dimension to the Shaw jacquard collection.

- **Skye** has a more subtle appearance than the stronger, multi tonal designs of Mantra and Le Reve.
- We see **Skye** appealing to those looking for something more than a plain fabric.
- Looks good and protects: PVC Free | Lead Free | Tested against harmful VOCs. Complies with class 2-9a of the BCA. Tested to AS1530 Part III.
- Accommodates wider windows – 3000mm wide
- Contemporary colours in the range are enhanced by the cationic yarn which adds sheen and depth to the finish of the fabric.
- 9 colours are available blackout and light filtering qualities.

The **Skye** colour range matches and compliments 2017 colours and 2018 forecasts:

1. SHADES OF WHITE

Taking the lead from paint manufacturers; **SHADES OF WHITE** co-ordinates with cool grey whites through to warm apricot hues, complimenting accent colours of taupe and coral.

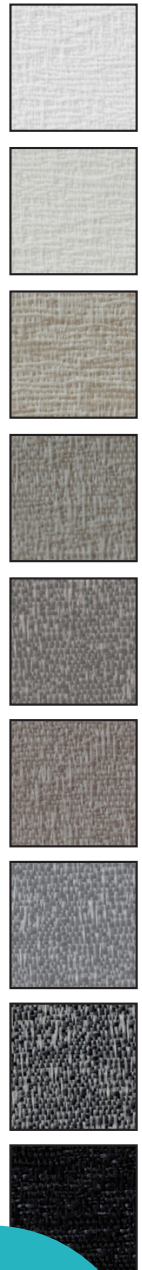

Skye Swan, Skye Porcelain and Skye Oyster are the heroes of this colour segment.

2. GREIGE

Inspired by the mid tone interior paint colours of established bronze greys and the increasingly popular cooler silver tones. *Skye Sail, Skye Chiffon, Skye Earl Grey, Skye Chrome are the heroes of this segment.*

3. MOODY TONES

Skye Blazer and Skye Raven are the dramatic heroes of this segment, presenting a blue grey and charcoal black, which give a perfect back drop to accentuate strong colours like ochre, emerald and teal, or provide a feature against a neutral interior scheme.
